[4] Our Proposal for “Future Medical Service System” in Iraq

“Pyramid of Medical Service System”

- Medical Service System is like “Pyramid” to provide proper service to proper patients.
- The Pyramid also has a role for education, training and research for medical specialists with cooperation with Medical Department of Universities.

	: Existing Facilities		: Ongoing Project
	: Future Facilities		: Future Project
	: Flow of Patients		

Technical Cooperation through NPO
